Hello all.

Following our meeting from today, I've summarised actions for everyone.

- 1) Keith and Harrison - the team have agreed that we will create a simple website instead of a complex one. Please simplify your webpage and resend this to me. If you want your webpage to be integrated with the rest of the website, please avoid style sheets as we will be creating this separately. if not, it will just open as a separate window.
- 2) Paul - please email me the content of your website. Just simple text and images (without coding).
- 3) Anna - to create a simple script for manual testing the website.
- 4) Everyone - Please keep the Trello/Kanban board updated so that any outstanding work is monitored.

Please note: Tomorrow's meeting will not be for revising for the exam. Instead, this will be a day to go through the main website and discuss what needs changing.

Anna Legaspi

Hello all.

Thanks Jay. Happy to help.

I've now created the script needed for our testing as attached.
I've sent it to all of you in advance in readiness for our collaborative testing.

Anna Legaspi
